the Youngest & the Eldest of your
Patients**

Child & Adolescent Psychiatric Care

Dr. Ritwick Chatterjee
M.D. (Psychiatry)
Post doctoral Fellowship (Child & Adolescent Psychiatry)
Calida Rehab Sus, Baner

Dr. Ritwick Chatterjee aims to create awareness and break the stigma about mental health illnesses. He was also responsible for holding group awareness for these for Child and Adolescent Adolescent mental health as well as sexual disorders.

He trained in his MD in Psychiatry from Nair Hospital, Mumbai. With helpful teachers and mentors, He had the opportunity to be trained in Child and Adolescent mental health, Geriatric mental health and Deaddiction. After completing his MD he trained further in Child Psychiatry and was responsible for certification in specific learning disabilities and Autism Spectrum disorders. He was also awarded the J.C. Marfatia award for best research in Child and Adolescent Psychiatry (Senior Category) in India in 2019. He then pursued a Post Doctoral Fellowship in Child and Adolescent Psychiatry before starting his journey as a consultant psychiatrist.

During his journey in this field, He realized two important lessons when it comes to Psychiatry. First, is that the stigma against a mental health illness can sometimes create more dysfunction than the mental illness itself. Second, each person is a unique identity. They have a unique brain with a unique biology. One cannot generalize treatment approaches and it has to be personalized according to each individual. These two lessons form the basis of his approach towards understanding mental health and helping individuals lead a better life.

Compassionate Geriatric Psychiatric Care

Dr. Pooja Vilas Misal
M.D. DNB, DM Geriatric Mental Health
Consultant Geriatric Mental Health,
Jupiter Hospital Baner.
